Indication of purging.

No genital injury.
No purging.

16. **Position of limbs**—
Especially of arms and of
fingers in suspected
drowning the presence or
absence of sand or earth
within the nails or on the
skin of hands and feet.

Straight.

17. **Surface wounds and
injuries**—Their nature, posi-
tion, dimensions (measured)
and direction to be
accurately stated—their
probable age and causes
to be noted.

If bruises be present what
is the condition of the
subcutaneous tissues?

(N.B.—When injuries are
numerous and cannot be
mentioned within the space
available they should be
mentioned on a separate
paper which should be
signed).

18. Other injuries discovered by
external examination or
palpation as fractures etc.

↓
No fracture

- (a) Can You say definitely
that the injuries shown
against serial Nos. 17
and 18 are ante mortem
injuries?

↓
Yes, antemortem

- 1] Sutured wound present over left parieto-occipital area, of length 8 cm with 13 black sutures present insitu, surrounded by abrasion of size 8 cm x 6 cm, red in colour.
- 2] Sutured wound present over left preauricular region in upper part, of length 4 cm, 6 sutures present insitu.
- 3] Sutured wound present over left ear in upper part, of length 5 cm, 6 sutures present insitu.
- 4] Graze abrasion present over left zygomatic area, of size 2.5 cm x 1, directed laterally downward, red in colour.

*This Spinal Cord need not be examined unless there are any indications of disease. Strychnia poisoning or injury.
Note— The report must be written and signed immediately after the examination. Medical Officers will at once despatch a duplicate copy to the Civil Surgeon of their district for record in his office.
Great care should be taken not to cut the viscera before they have been inspected in situ.
